Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts. guide. The Middle Grade Memoir of a Girl Boxer and Future Olympian. In this Lean-In style inspirational memoir, twelve-year-old Jesselyn Silva offers a ringside seat to girl power and what it takes to win in the ring and in life: punch by punch. My Corner of the Ring shows kids what it means to be true to yourself and stick with your dreams even when facing adversity and ridicule. Supported by her single dad, Jesselyn (JessZilla in the ring) first donned her boxing gloves at seven years of age, making her one of very few female boxers in the country. My Corner of the Ring charts Jesselyn's oft times exhilarating and heartbreaking journey to success in a male dominated sport where she struggles to find partners to spar with and combats the viewpoint that no one wants to see a girl fight. Despite an inhospitable environment, Jesselyn still has her sights set on the Olympics. With the help of her very dad, Pedro, who has instilled in her a strong work ethic, she just might make it. It is an exciting and motivational read that will provide kids with the roadmap and encouragement to accomplish whatever goals they set for themselves. Jesselyn's positive can-do attitude and determination make this a must read. The complete lower primary Guided Reading series for developing independent readers. A legendary NBA player and beloved teammate shares his hard-earned wisdom about finding your true purpose and mastering your inner game, whatever that game might be. Chris Bosh is on any list of the Top 100 NBA players of all time--an eleven-time All Star, two-time Finals winner, Olympic gold medalist, and currently the league's Global Ambassador. Always an uncommonly philosophical NBA star, he found himself needing all the mindfulness he could muster in 2017, when his career was cut short at its prime by a freak medical condition. Suddenly, he was thrown out of the work that had given so much more than just a livelihood, and had to think deeply about his identity in the world. This game had taught him so much; what could he make of it all? Out of that place of deep reflection has emerged an uncommon book for a retired superstar to write. While it has the best elements of a memoir--the portraits of the great players and coaches, from LeBron and Kobe to Pat Riley and Coach K, and the accounts of extraordinary competitive moments--it is really a wisdom book, a blend of The Inner Game of Tennis, Wynton Marsalis's To a Young Jazz Musician, and Rilke's Letters to a Young Poet. It is rich with insight about basketball, but even richer with insight about life. It's a book about finding a purpose that is deep and real, not shallow and external, and about navigating success and failure as the twin mirages they are--pushing past fear, past ego, past fatigue to the pure flow of sustained accomplishment in a mesh with teammates who have given themselves to the same thing. Chris Bosh found that flow, and sustained it at the highest level. He misses basketball keenly still, but he has no regrets. Deep, honest, unflinching, this book is his friend's hand up to those coming up behind, whatever their pursuit might be. Contains twenty-five books about a variety of subjects that encourage beginning readers.
